

Scaffold-split Performance: Flexi-JEGNN vs Baselines

BACE/HIV/BBBP: published scaffold-split numbers · PDBbind: continuous affinity regression (Pearson r) · QM9: continuous HOMO–LUMO gap regression (Pearson r) · ADMET: re-implemented

■ Flexi-JEGNN (proposed)
 ■ 3D/pre-trained
 ■ Transformer
 ■ 3D geometric
 ■ 2D topology

* = Flexi-JEGNN proposed method · QM9 D-MPNN leads at L1 ($r=0.836$); Flexi-JEGNN at L2 ($r=0.814$)
